

Senior Consultant - EU Policy

Department:
Policy & Research

Location:
Brussels, Belgium, Brussels

Deadline:

Country:
Belgium

Ecorys is an international research-based consultancy that helps its clients make a positive impact on society. We are global leaders in research and evaluation, project management and communications providing the evidence and advice that our clients need to tackle the issues that affect communities around the world. Our 600 staff are justifiably proud of our innovative and thought-provoking contributions to policy and programme delivery. We are passionate about our environmental and social impact, donating profits to the Charity of the Year, volunteering days, and are committed to being carbon neutral by 2030.

What you will be doing

We are currently looking for **Senior Consultants** to join our Policy and Research team to help us further grow our European work. They will help us win and deliver research, evaluation and consultancy projects across one or more of our EU policy areas including **employment, education, skills, social inclusion, equalities, youth, digital, intra-EU labour mobility, climate change, migration as well as monitoring and evaluation of communication activities**. Our Senior Consultants will have the opportunity to work for a variety of key clients, including the European Commission (e.g. DG EMPL, DG EAC, DG CNCT, DG RTD, DG HOME) and other EU bodies and agencies.

As a Senior Consultant, you can expect to:

- Manage medium to large research projects, control budgets and timescales and oversee teams of other researchers and experts.
- Utilise core technical skills to design and oversee research and evaluation methodologies covering mixed-method research techniques. This will involve a variety of primary, secondary, qualitative and quantitative research methods such as desk research, interviews, surveys, focus groups and statistical analysis.
- Successfully conclude projects through the production of high-quality written reports, presentations, articles and the use of other dissemination channels.
- Manage high-performing technical delivery teams to work within tight deadlines.
- As a key part of the role, you will be expected to work with Ecorys Directors to lead proposals for new work, and to actively research opportunities to grow the company's portfolio of EU market opportunities.

What we will need from you

- Strong knowledge of EU policy in relevant thematic fields.
- Experience in the development and delivery of evaluations and/or research, including the successful application of analytical approaches and technical research skills. Prior experience in delivering EU impact assessments would be an advantage.
- A drive for business development, ideally with track record in winning new projects and tender writing.
- Experience of stakeholder management and building and maintaining client relationships.
- Experience in working with multidisciplinary and multicultural research teams (including industry and academic experts as well as partners and subcontractors).
- An excellent level of spoken and written English and strong presentation skills are essential. Other languages are an advantage.

Ecorys offers its employees a professional, stimulating, and learning environment with ample opportunities for development. You will work in a multicultural environment alongside a supportive team atmosphere.

The role offers a competitive remuneration package with a gross salary range of €50,000 – €67,000 per annum and attractive benefits. Our package includes, among other things, a homeworking allowance, meal vouchers, private health, dental, and hospitalization allowances, a collective bonus, reimbursement for home internet and mobile phone devices and subscriptions.

You will enjoy a good work-life balance and take advantage of our hybrid work policy, which allows for remote work up to 2 days per week.

We encourage interested and qualified candidates to submit their CV and a 1-page cover letter in English via our online application form.
